

**THE MAYOR OF ATHENS**

Executive Committee  
International Society for Ceramics in Medicine (ISCM)

Athens, 8 September 2014

Dear Executive Committee,

As Mayor of the City of Athens, I would like to pledge my full support to the bid to host the 27<sup>th</sup> Annual Meeting of the International Society for Ceramics in Medicine (ISCM), "BIOCERAMICS-27" in Athens in 2015. An event of such importance and prestige would undoubtedly constitute an honour for the City of Athens and for the entire scientific community of Greece.

I am certain that the Organising Committee and the local scientific community will exceed themselves in order to ensure the organizational and scientific success of the 2015 Conference. I believe that the exchange of information and knowledge is of crucial significance to the scientific advancement of the Ceramics in Medicine

Furthermore, I strongly believe that the "BIOCERAMICS-27" International Annual Meeting in Athens will be a uniquely positive experience for all its attendants. Athens is a European Metropolis at the crossroads of three continents. It is a city endowed with year-round sunshine, the European capital city with the most blue flag beaches, a booming gastronomic scene and warm, hospitable people. In addition to world class attractions, UNESCO cultural heritage sites and the longest archaeological promenade in Europe, in Athens one will find new high-end convention facilities and hotels, a vibrant entertainment scene and a state-of-the-art transportation network to accommodate the needs of the most demanding of events.

I am fully convinced that the 2015 "BIOCERAMICS-27" International Annual Meeting in Athens will constitute a uniquely positive experience for all its participants and I assure you that the City of Athens Convention & Visitors Bureau will put its best efforts to support the organization of the conference.

Sincerely,

  
Yorgos Kaminis
